

## Reflection Questions for Planning Stage Work Sample

Instructions to Students: Use this set of questions to describe what you learned during this stage of the Culminating Project Assessment for Certification. Be sure to review the learning objectives related to the work sample you chose. Your responses will be considered along with your work sample when your work on the Culminating Project is assessed using the Culminating Project Assessment for Certification (CPAC)—Scoring Rubric.

### Content Knowledge and Skills: Question 1 of 5

Review the learning objectives identified for this work sample. What ideas, concepts, and skills from the specific learning objectives did you apply while developing this work sample?

### Content Knowledge and Skills: Question 2 of 5

How does the work sample you selected demonstrate your understanding and application of the ideas, concepts, and skills from the specific learning objectives you mentioned above?

### Quality Reflection: Question 3 of 5

Describe the quality of your work sample in relationship to the specific learning objectives.

### Quality Reflection: Question 4 of 5

Describe what you could improve about your work sample.

### Contribution: Question 5 of 5

Describe how you contributed to the development of the selected work sample.
